Re: Attn: Mr. Steven Brantley, Sr. Petitions Attorney

I am, have always been, Pro Se Independent
Inventor and Author in Entirety.

I never filed a Petition under 1.182
or 1.183. I never asked, was preadvised,
or consented in advance, to my 6/14/10
37 CFR 1.181 (a) Petition to Director
be assumed into any other Petition.
I understand, 12/10/10, 1.182 and
1.183 were dismissed. I have no
direct knowledge of them. Let them
stay Dismissed and do not open because
mail is sent to me. Do open my
37 CFR 1.181 (a), please. Enclosed,
again, is my 6/14/10 37 CFR 1.181 (a).
I understand, I can pay \$400 for Ribbon, and
regulation fees for Abandoned, Unintentional,

I regret no operative, safe, ^{printer} computer, still.

Re: Unexpected Mailing and Call from Your Stated Representative,
"Sr. Petitions Attorney Steven Brantley" (unknown to me).
which I fathom is towards expediting my 37 CFR 1.181(a) 6/14/10.

Dear Madam or Sir:

Following on my unexpected receipt of mail to ^{wards} Petitions
of 37 CFR 1.182 and 1.183 I had not filed or authorized,
nor ^{expressly} mailing of its alleged date, June 25, 2010, and
following on my message stating such to named USPTO
Petitions Attorney Brantley (no prior knowledge/acquaintance),
Mr. Brantley phoned me, 1/3/11, and represented that
my actual Petition filing (copy enclosed) 37 CFR 1.181(a)
of 6/14/10 had been/is the basis of his 12/10/10 letters,
hence, is my case of 6/14/10 37 CFR 1.181(a), not of any
other party, for none was/is mentioned anywhere on
document 12/10/10, none mentioned in phone call from
Mr. Brantley, and, none permissible by Law, or by me.

I would have appreciated a direct response to my
37 CFR 1.181(a) which I never received. Also, not mentioning
my actual Petition in his letter ^{was} confusing, for I never
petitioned under 82 or 83, or lettered to USPTO 6/25/10.

I understand in speaking with Mr. Brantley that I can
file under 82 (for instance) re Ribbons and Abandoned, supplying
\$400 therewith, if not by 2/11/11, then sometime later when
financially feasible for me. I regret our crossed references.

Responding to My Petition Enjoining on my Patent

Charles Steven
Dear Sr. Petitions Attorney Brantley,

Thank you for our telephone conversation today,
and for clarifying your Correspondence, 12/10/10,
based off my 37 CFR 1.181(a) Petition to Director,
marked by me "Due to No Fault of My Own" 6/14/10,
moreover, for clarifying 37 CFR 1.181(a) relates
only to remedy of Fault Due to USPTO or USPTO
error. My opinion, that is not the case concerning
my Patents, Filings, Applications and Concerns. I was
not aware of the specific limit re 37 CFR 1.181(a),
and appreciate your information in that regard.

I understand and thank you for your advisement
that lack of Ribbon Copy does not impact or reduce
my legal rights and entitlements, nor does it bestow
any on other parties. I am, was, pro se Independent
Inventor, sole Inventor, Applicant, Author and Owner my Patent.

OFFICE OF PETITIONS

Thus, it is of No Fault of My Own, and of no harm to me, if other parties incorrectly construe my lack of Ribbon Copy, or another holding of stolen/destroyed Ribbon Copy as vesting or shifting any manner of Rights and Entitlements. Further, as 37 CFR 1.181(a) has limit towards USPTO as to No Fault of Its Own, then, as pro se, categorical reflexive, merit of my Petition under 37 CFR 1.181(a) can stem in case due to No Fault of My Own. My opinion, this logic, and circumstance, holds. For, as you mention, in matter of Unavoidable versus Unintentional, a general proof against Unavoidable respective withdrawal of Abandonment occurs should Patentor pay Maintenance Fees, yet choose not to move forward open file Applications, resulting in their subsequent abandonment. But, here, the measure would be - to choose - with further implied that Patentor had more funds discretionary at the margin to continue prosecution but elected not to do so. In neither case is/was that my circumstance. First, a Patent lapsed in Maintenance past grace surcharge virtually cannot be petitioned into re-existence/in force, such that, there is no choice, Maintenance must be paid having no Petition umbrella, whereas Abandons (Divs, Appls, Provs) do. Second, I had no objection by 10/3/2009 12/23/2010 went without to pay Maintenance.

Sincerely, ~~David Andrew D'Zuruk~~ David Andrew D'Zuruk
In the past few years, I have met, in surcharge grace,
the first four issued of my Patents, including \$555 I paid
in my mailing 12/8/10, the fourth. It took six months
to save, while wholly foregoing any expenditure other
than housing, food, medicine, and the case, for years.
I, today, have \$9, and my SSI/SS each month of \$865 is
due me. For instance, my housing (with utilities) costs
about \$450/month, my medicine nearly \$200, food adjustable.

The only other Party, potentially with Rights and Entitlements,
as I see and wrote, 12/09 through present, including 12/8/10,
in my so-named "O/CPLT" (Our (USA DJ) Counter Party
License Transaction), is the USA Commonwealth, if and as,
US Agencies undertake contractual specification with me,
as I availed, and payment to me - which may be lawfully
grantable to calendar year 2010, if not earlier, 2009 or prior.
That is a matter I have not heard or received specifics, offer,
contract. My O/CPLT filing, I sent to Director, OIPR, ODM,
and to US Dept. State, Treasury and IRS. All resides here, otherwise.

I take to heart, your indication that stepwise approach,
paying of \$400, for instance, is one Ribbon replacement, or
fee plus relevant Application fees for a specific Abandonment,
is a valid manner - esp. if Patentor has the money to do so,
or - only if - My 6/14/10 states some background. If, as,
neither USPTO or myself are expressly at fault, as appears,
then 37CFR 1.181(a) stands in my favor, without your fault.
Further facts may prove that further if needed. I do not have
\$400 today, but hope to by 2/23/2011. 2/16/11. ~~David Andrew D'Zuruk~~

Decision on Petition *[Signature]*

?

OK?

This a decision in response to the petition filed June 25, 2010, which is being treated as a petition under 37 C.F.R. § 1.182 requesting issuance of duplicate letters patent. ~~The petition~~ is also being treated as a petition under 37 C.F.R. § 1.183.

The petition under 37 C.F.R. § 1.182 is dismissed. ?

The petition under 37 C.F.R. § 1.183 is dismissed. ?

Petitioner filed a single petition on June 25, 2010. The petition requests the Office:

1. Issue duplicate letters patent for all of Petitioner's patents,
2. Withdraw the holding of abandonment for all of Petitioner's abandoned divisional and provisional applications, and
3. "Advise the US Dept. Commerce, US Treasury and Executive Cabinet to License ... my Intangible Wealth."

When a party wishes to address an issue involving more than one application or patent, a separate petition must be filed in each of the applications or patents. As a courtesy, the Office has taken steps resulting in a copy of the petition being placed in each of the patent files. However, if Petitioner wishes to request reconsideration of more than one of the decisions, a separate request must be filed for each patent.

Duplicate Letters Patent

The Petition Under 37 C.F.R. § 1.182

Duplicate letters patent may be obtained by filing a petition under 37 C.F.R. § 1.182. Therefore, the Office has treated the petition as a petition under 37 C.F.R. § 1.182.

A petition under 37 C.F.R. § 1.182 for duplicate letters patent must:

- (1) Establish the original letters patent was never received at the address of record, or
- (2) Include a petition fee of \$400.

The petition does not assert Petitioner never received the original letters patent and Petitioner has not supplied the \$400 fee. Therefore, the petition under 37 C.F.R. § 1.182 is dismissed.

The Petition Under 37 C.F.R. § 1.183

Petitioner appears to be seeking waiver of the requirement to pay the \$400 fee for the petition under 37 C.F.R. § 1.182. Therefore, the Office has treated the petition, in part, as a petition under 37 C.F.R. § 1.183 requesting waiver of the requirement in 37 C.F.R. § 1.182 for any petition under that section to be accompanied by the \$400 fee set forth in 37 C.F.R. § 1.17(f).

37 C.F.R. § 1.183 states, with emphasis added,

In an extraordinary situation, when justice requires, any requirement of the regulations in this part which is not a requirement of the statutes may be suspended or waived by the Director or the Director's designee.... Any petition under this section *must be accompanied by the petition fee set forth in § 1.17(f).*

A petition under 37 C.F.R. § 1.183 must be accompanied by payment of a \$400 fee, which a party can argue should be waived and refunded in the petition. Petitioner has not submitted the \$400 fee. Therefore, the petition under 37 C.F.R. § 1.183 is dismissed.

As a courtesy, the Office will briefly discuss the requirements of 37 C.F.R. § 1.183 and some of the facts in this case.

In order for a regulation to be waived, justice must require the waiver of the regulation. Justice does not require waiver of a regulation when enforcement of the regulation will not impair the legal rights of a party. Patents are intangible assets and patent rights exist independently of any letters patent. In other words, a copy of a patent grant only has symbolic value. Therefore, the loss of letters patent and the failure to receive duplicate letters patent does *not* impair the legal rights of any party.

Even if a party could be harmed by not possessing any copies of a patent, such harm could be remedied without a need for issuance of duplicate letters patent. For example, a party can obtain a certified copy of a patent for \$25 and an uncertified copy of a patent for \$3. Additional information concerning ordering certified or uncertified copies of a patent can be obtained by calling 1-800-972-6382. In addition to ordering copies of patents from the Office, one can find and print copies of patents from multiple sites on the internet.

The Abandoned Status of Multiple Applications

The petition requests the Office withdraw the holding of abandonment for all of Petitioner's abandoned divisional and provisional applications.

Based on Office records, Petitioner's divisional applications appear to consist of Application No. 10/509,085 and Application Nos. 10/681,356 to 10/681,367. Petitioner appears to have filed about 16 provisional applications.

The Office will not consider the request to withdraw the holding of abandonment in the divisional applications and the provisional applications, because petitions to withdraw the holding of abandonment do not appear to have been in any of the cases.

If petitioner wishes to argue the holding of abandonment should be withdrawn for a specific application, a petition to withdraw the holding of abandonment must be filed in that specific application.

If Petitioner wishes to argue the holding of abandonment should be withdrawn for multiple applications, separate petitions must be filed in each application.

Request for the Office to Advise Agencies to License Patent

In general, each federal agency within the United States makes the agency's own decisions with respect to the purchase and/or licensing of patents and the United States Patent and Trademark Office does not have the authority to force other agencies to license a patent. Therefore, the Office is unable to advise the Department of Commerce or any other agency to license the patent.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are NOT permitted. The reconsideration request should include a cover letter entitled "Renewed Petition."

Patent No. 7,357,638 :
Issue Date: April 15, 2008 : Decision on Petition
Application No. 11/455,901 :
Filing Date: June 19, 2006 :
For: Astrological Horoscopes :

This a decision in response to the petition filed June 25, 2010, which is being treated as a petition under 37 C.F.R. § 1.182 requesting issuance of duplicate letters patent.

The petition under 37 C.F.R. § 1.182 is **dismissed as moot.**

Yes, received [Signature]

Petitioner has filed a single petition. The petition requests the Office:

1. Issue duplicate letters patent for all of Petitioner's patents,
2. Withdraw the holding of abandonment for all of Petitioner's abandoned divisional and provisional applications, and
3. "Advise the US Dept. Commerce, US Treasury and Executive Cabinet to License ... my Intangible Wealth."¹

When a party wishes to address an issue involving more than one application or patent, a separate petition must be filed in each of the applications or patents. As a courtesy, the Office has taken steps resulting in a copy of the petition being placed in each of the patent files. However, if Petitioner wishes to request reconsideration of more than one of the decisions, a separate request must be filed for each patent.

Duplicate Letters Patent

The Office mailed the original letters patent on April 15, 2008. The United States Postal Service subsequently returned the letters patent to the Office undelivered.

Office records indicate the Office mailed new letters patent to Petitioner on June 25, 2010. Therefore, the request for issuance of duplicate letters patent is dismissed as moot.

OFFICE OF PETITIONS

In the period, 11/2008 through 12/2009, I, and my belongings, were viciously attacked in my home - an apartment I rented using my Section 8 Housing Choice Voucher (HUD), wherein I was sole tenant/resident/lessee/inhabitant.

Cruel sick trespassers invaded, illegally, my home when I was out, and, sometimes, at dead of night when I was asleep. I lived alone, had no friends or acquaintances, never gave anyone key or permission to enter. I am disabled/handicapped, deemed "gravely" disabled by Social Security Administration since January 2000. Evidence by SSA enclosed. I am very low income, with only SSI/DI (Supplemental Security Income and Disability Income) totalling \$865/month, to meet all of my needs. I am single, independent (by IRS and SSA codes), and live beneath poverty line. I am severely handicapped since birth, and it was not expected that I would survive childhood. It was believed I had genetic leukemia, as well as haemophilia. I sat in my rooms, and read. My siblings did not spend time with me, nor did my parents. I nearly died Summer 1978 of Guillain-Barre type paralysis and semi-coma. Again in 1979. And, by age 26, I was essentially disabled permanently from the general workforce, though before then, I had an exemplary early career.

In 1980, I interned for the United Nations Industrial Development Organization, Vienna Austria. I was Research Associate in Education and Manpower Training Programs. In the words of my boss, Mrs. Irene Lorenzo, I did "twice the work of all the other RA's combined, plus (mine) went straight to official U.N. print." In 1981, I did unpaid full-time volunteer service for our Nation, working, security clearance, as Jr. Foreign Service Officer equivalent for the U.S. Department of State, International Organizations, Economic Policy Unit, under Secretary Alexander Haig, Unit Director Lee Saunders, and Unit Deputy Director, Kenneth Yalowitz. I served with distinction.

I graduated from Wesleyan University, Middletown, CT (1983) majoring in Government and Economics. I co-developed, -designed, -and authored, economics first and vanguard work, under Economics Chairman, Dr. Peter Kilby, establishing cost/benefit analysis (1983), later published 1985 by US Agency for Int'l Development.

Upon completing cost/benefit analysis and structured work-out examples (including multipliers), I moved to West Berlin (9/1983) to begin my independent research project, (credit crisis of the Third World, for which I was awarded a Deutscher Akademischer Austauschdienst (DAAD) fellowship [W. Germany's Fulbright equivalent, but generally only awarded at graduate and post-grad levels, not undergraduate (I was the first Wesleyan alumnus in its 150-year history to receive one)]), and also attended graduate classes at W. Berlin's

Freie Universität Berlin (Free University of Berlin). Based on rave success of my independent work, I was awarded the very rare distinction of a second year's Fellowship, expanding to the World Bank, IMF and Special Drawing Rights.

In Spring 1984, I began work, half-time, at Citibank Berlin, a five-officer corporate international boutique, as its financial statement and numerical analyst. Doing a sixty-hour a week job in less than twenty, I created and maintained a perfect book for Citibank, without any delinquency, late or missed payments, defaults or downgrades, during my two years there. Citibank Berlin was the finance arm of the Kennedy Berlin Air Lift Mission. I was the only native English speaker, and non-German officer. Also, in 1985, I, single-handedly, as one-man team, defeated, in every banking performance category, all of the major German banking multi-person teams (them armed with laptops and mainframes; me with \$2 calculator) in that year's IBM-sponsored Bank Management Simulation competition.

I also consulted, 1985-86, for Wirtschaftsförderung Berlin (Berlin Economic Development Corp - a State-run industry-assistive operation), in Finance and Taxation (under Director Uwe Petersen), American corporations.

Finally, after my DAAD's ended (5/1985), I continued to independently invent, conceive, design, document and present multi-national composite currency (trade-weight balanced) to FU Berlin, Citibank and EDCB, which then later became, the Euro. I was, and still am, uncompensated for my invention.

Due to No Fault of My Own

During to recurring bouts of my illness, I returned to the USA in early 1986. I received the Marcus Nadler Fellowship in Finance from NYU Graduate School of Business, but retired after 1½ semesters from illness, which from then on kept me unable to maintain regular full-time schedules. With my girlfriend, we went to Rhode Island, then back to Pennsylvania (East side) where I grew up. I took up trade jobs when I could, played, composed and recorded a large body of novels, original music, and photography, over the next ten years. I maintained learning by reading and researching on my own, entire areas of human endeavors. I made over 200 songs, as private (unsigned) recording artist, some songs of which I registered for copyright (I have over 30 copyright registrations at the US Library of Congress Copyright Office - the certificates of which were stolen, as well), such as my "Agent Edgar-Deluxe Archangel", my "Copies by DEAD", and "D'Zmura". All performance, recordings, composition, lyrics, instrumentalization are mine, alone. Never I have parted them, or signed or assigned any part or portion to anyone ever. All: foraged.

In 1995, it was announced that the International Association of Financial Engineers (IAFE), Exec. Dir. Dr. John Marshall, was to hold a special two-year Master of Science in Financial Engineering degree, the first of its kind in the world, to the highest, most demanding standards, supported by a \$2 million grant from the Sloane Foundation. The two-year program, under Dr. Marshall, Dr. A. Kalotay, and Dr. M. Dorigan, would be held at Polytechnic University, Brooklyn, NYC. I applied, and was provided full scholarship. Rigorous indeed: of 25 entry candidates, only eight of us walked across the diploma podium in June 1997. I graduated in three semesters, and finished atop of my class. My independent research project, on depository banking default and catastrophic loss in Property & Casualty insurance, was the only research professionally published: see my "Forecasting Expectations..." of 3/1998, CIFE (Computational Intelligence in Financial Engineering), IAFE/IEEE NYC. My work, comprising numerous inventions and improvements, forms a divisional group in my US Patent "Invention in Finance", whereby I duly filed timely

I was an original member of the IAFE, joining it in its initial year of inception, 1993, when I lived at 207 N. Main St Doylestown PA, in a tiny one-bed room apartment, getting by as a part-time estate house painter and fine dining waiter. During my Summer vacation, 1996, between semesters in my M.Sc. FE program, I succeeded where Einstein himself believed no one could ever achieve it: I derived precisely, by differential calculus, Change with Respect to Time, also known as the Fourth Dimension, and, in physics and finance, as Duration. Further, I then also succeeded in solving, again by diff. calculus, its Change with Respect to Change, called Convexity. As Einstein postulated, and as I proved in my Formulae and Coded Algorithms, Duration is of negative magnitude. I submitted to USPTO, my first patent application, pro-se Independent, in 11/1996 of this invention group of mine, which also included further inventions of mine, an universal valuation mechanic enabling wholly industry-disparate financial instruments (fixed-income securities (bonds); equities; and insurance policies) to be comparatively valued. Also, my provisional filing of 11/1996 contains my Replicated Equivalent Primary Securities (REPS), its compositional process, and trading system based thereon. In my first filing, I solved what Einstein and no one in 100 years of physics, mathematics or quantum could solve, as well as unite all types of financial securities under a single universal valutive framework, and made the compositional mechanic for portfolio hedging, immunization and arbitrage. As first, and with extraordinary value in finance industry, energy physics, light, quantum and field theory, I claimed, and patented (world's first patent of mathematical formulae and their coded algorithms) Duration, Convexity and universal valuation (also with energy industry applications) in my Patent # 7,236,952 "Investment in Finance", just one group of a dozen Divisionals within my grand conglomerate treatise, of which all inventions, text, drawings, authorship, prosecution, claims, rights and entitlements are mine, alone.

My "Invention in Finance" contains many important inventions in
divers critical financial operations. For instance, my Ratios pertaining
to safe/precarious indicators of depository bank solvency absolutely
indicate, and, I invented them to assist the FDIC, our Federal Bank
System, and Bank risk-managers to track, detect and avert trouble.
Instead, it was clearly infringed by Chase (several Poly FE's went to
work for Chase) to identify, marginalize, collapse and absorb banks
at risk. (No - I was not paid - in fact, I have never ever earned even a
dollar, Euro or Yen, or Pound, for my works which constitute over half
of leading-edge contemporary "rocket-science" finance - a multi-trillion
dollar a year (US alone) industry). Add my 11/8/2007 US Provisional
#61/001436 "Energy of Financial Instruments" (never published or
sold by me - yet (copies) stolen) and it covers 3/4 (half of trading).
Almost all valuation specialists are using my patented, claimed
Algorithms in my "Invention in Finance" - full-scale, full-industry infringement.

During my Spring Break vacation, 3/1997, I peened out the central
and crux hub inventions and inventive steps, and, the mappings of
the outlying destination inventions, comprising my complex set of
over 150 inter-related inventions solving empirically, and, in so doing,
unifying every aspect of world astrologies, in my 3/1997 provisional.
From among its dozen Divisional groups, from my US/PCT 00 and 5/5/2001,
and 10/18/1998, I have patented five of the groups. Seven remaining.
Of patented, the cloth of my prodigious treatise appears to be the field
of astrology (in the words of Australian patent examiner, "you have created
a monopoly on an entire field of human endeavour"). Yet, it is really
my Astro Logic, which comprises astronomy, telemetry, coordinate
systems, system conversions, near-Earth geo-locating, GPS, telecom,
in addition to the solution eluding astrologues and astronomers for over
6,000 years - the locus of the division, wherefrom precise alignment of
Northern and Southern hemispheres can be precisely known any specific day.

My patent, "Stars in Ecliptic Coordinates" # 7,083,415, moved near-Earth telemetry, satellite and GPS into the 21st Century. Notice how fewer calls drop? My coordinate conversion process, from equatorial to ecliptic enables not just stars to be catalogued in celestial longitude and celestial latitude (essential to plot stars/constellations in astrological charts, or any solar system plot, themselves mapping planets in ecliptic coordinates, whereas prior art star catalogues map stars in equatorial coordinates of right ascension and declination: incompatible without my claimed and patented process), but to locate immediately, precisely and without numerous iterative steps or numerical approximation means, the specific pinpoint of satellite to ground location (be it cell phone, tower, suspect vessel or vehicle) because Earth-ground locations (such as on a globe) are in geographical longitude and latitude, and hence, readily, simply, exactly convert to celestial ones. Hence, my patented process is the key inventive step for 21st century Earth to near-Earth telemetry, communications, GPS and high-speed identification (and low-use CPU with approximation error) of target. This is hugely important to our Nation's telecom, aerospace and security. Also, my process (I discovered on Internet) is grossly infringed, not just by gigantic-scale industrial, scientific and military operations, but by some unknown, unlicensed whole-sale patent and copyright plagiaristic verbatim infringer (my copyright also covers my coded algorithms) in some rip-off book being sold to the public. No permission ever requested and none certainly ever granted by me. The plagiarist problem continues to ever worsen - my Astro patents, Class 434 Education and Demonstration, means every "Astrology" book coming out, every Blog, Chatlist, pseudo-astrologer, chart infringer, "Google book" whole-sale infringer/plagiarist, are not just hurting me, and stealing all of my hard labor for years (alone in my apt, sick, working weeks, or months, or years on end, by myself, for myself: pro-se independent, not in hire), but are perpetrating criminal patent class infringement - and the USA cannot allow this, for that violates our Nation, all PCT member Nations, and our Nation's rights.

I have worked over fifteen years on invention, all at my own time, learning, thought, pondering, analyzing, refining, solving, discovering, writing and drawing, in my own home, privately (not a business, home office or business address), amidst horrible suffering, agonizing pain of very severe maladies (for over 40 years of my life mis-diagnosed), very alienating grave, acute, subacute and chronic maladies. I work by myself, in my own home, where, always, I have been the sole tenant, resident, inhabitant. Every year of my life since leaving college, I have lived alone, without roommates, relatives or associates. Every year, I have met the IRS and SSA guideline codes of independent - if also desperately poor. I have been handicapped since birth and disabled (gravely) per SSA since January 2000. Years 1996-1999 I scraped by barely financially with some part-time consulting, proofreading, house painting (none related to my inventions) to eek out a poverty-line existence, amidst knowledge I was very ill and unable to have regular job or pay. I worked extremely hard, persistently, and deliberately, (without supporter, collaborator, partner, co-worker, assistant or attorney/CPA/agent/rep/editor/co-party), because patent and copyright laws say I get paid ("All are expressly prohibited"). It is, was, and remains my ticket to economic independence, wealth and income. I have no income from my works. All are in multi-billion, and multi-trillion dollar (USA alone) industries. All are core, critical, important, fundamental and/or revolutionary improvements. My only Counter-Party is the USA government. I sent you my works. You properly assessed them bona fide, and granted me patents. USA and I are being ripped-off by infringers, and USA is being scapegoated or being made negligent in its law enforcement. USA is losing tremendous value, economic growth, leadership, world standing due to others' crimes.

Due to No Fault of My Own

I have written and requested Replacement Ribbon Copies (Duplicate Letters Patent) now several times since first reporting the theft/loss of my beloved, hard-earned, keepsakes of my lonely contribution to the world. I have never even received a reply, let alone any Duplicates.

I don't have money to buy them - nor should I have to. The loss was Due to No Fault of My Own. I kept them safely as I possibly could. I have been gravely disabled since ten years - no income, except starting in 9/2004; SSI/DI totalling only \$865/month to cover all my life expenses, including housing, utilities, transport, food, etc. Sub-poverty-line. Do you know who you need to thank that USA is free today? A hand-capped man (Franklin Delano Roosevelt) and a disabled man (Sir Winston Churchill). They led us to victory.

In 2005-2009 I was finally correctly, scientifically, test-proven, diagnosed. Four severe genetic metabolic and mitochondrial disorders. ICD-10 E80.0 - E80.2: International Classification of Diseases:

- 1) ALA Dehydratase Deficiency Porphyrria (neurovisceral) metabolic
- 2) Acute Intermittent Porphyrria (neurovisceral) metabolic
- 3) Hereditary Coproporphyrria (neurovisceral) metabolic
- 4) Congenital Erythropoietic Porphyrria (bone marrow) mitochondrial.

Plus, genetic internal-bleeding type haemophilia. I bled nine months last year.

In addition to this, I have sustained hundreds of murder assaults, muggings, maimings, stalkings, and grisly maimings by packs and gangs of stranger hoodlums shooting at me with anything from live-ammunition guns (since 2007), high-powered laser guns/rifles, concussion bombs, sonic ear piercing/bleeding guns, lacerating weapons.

Due to No Fault of My Own

Shortly after publication and my presentation of my "Forecasting Expectations..." Proceedings of CIFE Conference 3/1998 NYC, and coincident with my filing, my PCT/US98 Astro, my mail, phone, any email and ever since have been constantly thieved, tampered, pirated, hijacked. By imposters. That was when I lived in NYC, 64 W. 82nd St #5F New York NY 10024. The phone and email pirating traced to an unknown stranger, named "Robert Soleby of Reston VA". Persons attempted murder on me, 8/1998. I reported it to US Attorney Office and NYPD. US Secret Service came, and told me, I was being hugely embezzled, but did not tell me by whom, what money, where it was, nothing helpful. And so it's been with police here in California. In 3/2003, Deputy told me there were murder plots on me. No specifics, no protection, no advice. One month later, they began and have never stopped. I'm not a celebrity. I'm a quiet lover, at home by my self most of the time. I have no friends, and scarcely even know my siblings. Before coming to Cal., I had no contact with them for twenty years. Here, now eight years, hardly any - and never any thing with them. Or any relative. I have no business, or business with relatives. Early March 2004, dead off night trespasser broke in and shot me point blank in the head (stungun?). Caused severe brain lesion and hemorrhage to my left claustrum. I called 911. No medical help came. Each year, I have a brain MRI. Each year it shows more and more maimings being done to me by people shooting lasers in my brain. And everywhere else, causing horrible internal bleeding, brain pressure seizures, convulsions, paroxysms, transient strokes. I have no heir, no spouse, no children, no beneficiaries. I leave nothing to my parents and siblings and relatives. They tried to murder me in 1968. Why? I don't know. I'm the only one with genetic disorders. Who are they?

Due to No Fault of My Own

You know so little about me - yet you are my Counter-Party. I have a large raised
mole between my shoulder blades. Darkish blue-grey eyes. In 2003, I solved unified
field theory. Proved it apparent. Corrected, making actual relations between the
fields. $cm = Mc^2$. Never got to file, was attempted murder on, early 3/2004. Doctors
said I'd die soon, no chance of walking or talking. I proved them wrong. Police
were supposed to protect me, even APS (Adult Protection Services) from abuse/violence.
No help. My writing "Free Energy" is partly disheveled to keep certain parts secret.
It is my energy apparatus to power electrical grids - not nuclear, not chemical,
no by-products. Could save humanity. You never got my "Methods to Saving
Life on Earth" (thieves tore it up and stole most chunks of it). You are dealing
with anti-American terrorists, traitors to USA, and criminals against Humanity.

I have no money, no prospects (permanent grave disabled): please decide to:
A) Provide me Ribbon Copies and Duplicate Letters Patents on All My Patents (sovereigns)
- free of charge: Send Ribbons and Letters to Me Personally

B) Remove any and every Divisional and Provisional Patent Filing of Mine
from Abandonment, and let me prosecute them free of charge
(I am not a small or large entity. I am a sub-poorly disabled/hand-capped.)

C) Advise the US Dept. Commerce, US Treasury and Executive Cabinet
to License, for USA science, industry, technology and security,
my Intangible Asset wealth. It leverages \$500 Billion in US Treasuries.

The Treasuries would be Centurians (20 yr patent, and life + 70 yrs copyright)
The Treasuries would be owned by USA Federal gov, and retire to US gov.

The Treasuries pay no royalty (perhaps 8% patent plus 4% copyright during term).
The Treasuries are not "fiat", but backed by my vast Intangible Assets.

The US Dept Commerce, Cabinet can decide on how to license different parts to whom.

My 2003-present, and future, inventions can be included, with special provisions.
The USA needs long long term Treasuries (these are minimum 70 years) and needs more solvency.
USA industry, culture, science, military, space, GPS, telecom can be best in world.

USA with multipliers will realize over \$10 Trillion within 10 to 20 years.

Doc Aoh Dma

Dear Director of the USPTO:

(wherein paying me annual in advance Royalty Interest)

In utilizing my Works (Intangible Assets) to underwrite US Treasuries/Bonds (Tr/Bs) and, for US Federal leadership to assume license and to bear authority in full to sublicense parts of my works as best suited to the nature and industrial applications of the respective parts, the US leadership will have free hand from me. That is, leadership is welcome to inquire as to my thoughts or opinions on sub-licensing or distribution of licenses by parts, but has full and free authority to decide and direct implementation and specification to industry, scientific and/or National/State entity use + license, and sub-license, as it deems licensors retain all earnings therefrom

In converse, similarly, while the vast US Treasuries and/or State and Municipal Bonds that are underwritten by my works (which I estimate to ^{or exceed} approach \$500 Billion: 70 year to 100 year Tr/Bs), the Tr/Bs retire at maturity back to the US Treasury and/or State/Municipalities, that is, the principal face value is of, and for, the People of the USA. However, ^{converse} similar as to use-license, I shall direct and chief executive the applications and allocations and investments of these Tr/Bs, serving the People's interests, our Nations' welfare, and our Economy's growth, security and development. I am a top professional in the field areas of industrial development, banking, securities and insurance, agriculture and nature preservation, and have at heart, sympathy and compassion to Americans of all walks, races, creeds, education and vocations, and am especially keen to utilize my executive and analytic, and constructive, sound comprehension, to solve and further our Goals. In so applying the Tr/Bs, I will consult and inform with US/State leadership, provide on-going status and routine reports, and save America millions in management salaries, middle-of-the-pack business leadership and blip, flat, or merger results, from the point-of-view of aiding and solving outstanding National and/or State/Municipal priority agenda items; this, coupled with an eye to highest standards of benefits over costs, creating and saving lives, jobs, welfare and standards of living of our People, and economic solvency of our Nation's governmental budgets, industries and localities.

Director of the USPTO /USPTO

As indicated and briefly recited in my eleven-page Petition to the Director, I am extremely adept at top-end financial, economic, investment and industrial matters, both via education and by experience. I bring an added dimension to a new modest Tr/B facility, complementing our Nation's/States'/Municipalities' own, much larger, self-directed bond-pool resources. I have several important agenda items, which can be briefly cited herein, so you understand where and how I intend to direct the underwritten Tr/Bs. For many of these, they are pure Governmental, that is not-for-profit, but for survival and security, solvency and maintenance of civic welfare. For others, there is a for-profit environment, hence, my Tr/Bs take a stake, albeit at discount or near-to-zero immediate per value, but with the mode to up-value the industry-sector by capital infusion, to which, in addition to my set Royalty/Interest per annum on the Tr/Bs, I may earn value as my methods and leadership ascend value of the target industry and/or major US public-listed corporation(s) needing or requiring bail-out, solvency infusion, to secure our People:

Example Investments (not in express rank order)

I am top
champion banker,
and World's top
Financial Engineer

A) \$50 Billion SEC bail-out (in addition to any other US/State funds) where, after analysis, zero-net or negative net value SEC assets are received, in return for future earnings, recovery, recoup thereon;

I will structure
this facility as
a AAA bank.

B) \$150 Billion State of California Budget Deficit Termination (and Return to Solvent Investment-Grade) as the World's sixth-largest bordered Economy, and at sub-investment grade, this State, and our Nation are gravely imperiled by this current, growing, unabated deficit boondoggle. In return for cancelling its deficit, California can pay my Royalty/Interest for that portion (of the \$500 Billion) - greatly less than current deficit maintenance.

This Step
Saves
Nation and
US of Treasuries.

C) \$15 Billion Salton Sea clean-up and Anza-Borrego State Park Recovery/Preservation: following on my de-salination, de-contamination, and termination of deadly single-cell algae blooms, which I presented to Congressperson Mary Bono-Mack over six years ago by letter, I would employ distributed de-salination equipment (prior art 40 years of UNIDO and USAID), coupled with UV single-cell extermination, whereby the water de-salinates, contaminants adhere to extracted salt crystallizations, fish and migratory birds again flourish, air quality from Joshua Tree to Mexico greatly improve - aiding human and animal life and health, and, greatly showing up property values throughout Coachella Valley and NE County SD, County Imperial, County Riverside, County San Bernardino and Anza-Borregos.

Without
changing
size of
Salton Sea

As long as:
a) State California
and City Indian Wells
sponsor BNP/Platensis
b) town of California
repays Indian Wells
its Bonds for stadium
c) I get steady ride
low front bus suite
for life

And
\$1.5B in
wildfire fighting
equipment,
standby trained
manpower.

And
\$1.5B in Aid to
California State Parks.

And
\$1.5B additional Rural

D) \$35 Billion Ocean Water De-Salination to Human Potable Standards for City of San Diego, County of San Diego, Coastal Cities SoCal, etc. To form methods and model extensible to Los Angeles County Coastal USA. There is not enough water in the Colorado River to quench Coastal Southern California. The Nations of UAE, Qatar, (and Kuwait and Saudi Arabia in part) de-salinate ocean water to Human Potable standards (prior art equipment UNIDO, USAID et al.), including fully all water needs for drinking, bathing, washing, agriculture. UAE and Qatar have the highest per Capita Income / Standard of Living in the World. Our SoCal Cities (esp. SD) need to start up now.

We are surrounded by Atlantic and Pacific and Gulf Oceans. 75% of our population lives within 15 miles of Coastal Water.

Clean-Up ASAP Saves USA

E) \$15 Billion Gulf Clean-Up funds, to engage now-unemployed fishermen, national and regional persons to pro-actively clean-up the oil spill damage, hurricanes, wildfires, as soon as possible, and into the middle term, to stem habitat death.

Averts major meltdown. Recovers/saves substantial resources. Secures our posterity and accommodates growth

F) \$25 Billion Displaced Worker Public Works Programs, aiding and training and providing yearly work to unemployed, esp. auto and Gulf industry, UGW, failing / failed equipment, leaks and losses, juncture points, lines and pipes of USA's (nation-wide) electrical, water, sewer, gas utility systems thoroughly, point-to-point, whereby, end-effect, greatly reducing system loss, overload, thereby reducing production / distribution to meet demand, lowering resource usage and utility costs. Includes check / fix of homes and businesses.

150 year Energy Needs Met Nationally - Oil Free - Nuclear Free

G) \$25 Billion Set-Aside to Build up Oil Reserves on Hand Nationally; while, develop and implement clean-coal powered electrical grid plants.

Dear Director of the USPTO:

Thank you for recording my payment of my maintenance fee, total \$555.-, made by my two partial payments, and thank you for returning the two USPS Money Orders I made in addition, over the total of \$555.- Please be advised, my home is being robbed and thieved, especially overnight while I sleep, and my correspondence I write during day is being thieved (the original) (by whom, I don't know, but felons, uninvited, not affiliated or associated with me, my inventions, my Patents, my money, my home).

I have been horribly mutilated, maimed, harmed, kidnapped, tortured (on public streets, by drive-by vehicles) using strange assault weapons, injuring my arm, abdomen and leg. This is constantly done by stalkers. I am sending heres

copy of my letters I prepared, originals stolen, which can advise USPTO if some form of my letters appears under other cover, that is my letters we purloined, used by fraud anti-American entities.

More to the point, I have been continually obstructed, rendered impoverished, robbed of virtually all my personal property (my computers, Ribbon copies, copyright registrations, filing receipts, floppy & CD backing disks of my files, my drawings, my handwritten notes. It is the most horrible assassination ever, and their crimes moreover constitute crimes against our Nation and World.

I notice, in public PAIR, my Patent # 7,236,952, under Continuity Data, is errant, and I provide copy of my Patent from your Image Base: my Priority Provisional # 60/30,085 of November 1996 is absent as PAIR, shows no Patent (and no Ribbon Copy) of my Related U.S. Patent Documents. It is key, as the set of claims I patent in # 7,236,952 is expressly found in my 60/30,085 11/96. I invented my Duration, Conversion, Basket Valuation, Portfolio Aggregation in full, and filed it 11/96, between 3/96 and 8/96, independent inventor pro se, sole inventor/sole applicant/sole owner. Please update/correct PAIR appropriately.

Also, my Ribbon Copy (and any enclosure) was stolen, of my Patent # 7,236,952, as with all my other Patents, Patents # 6,776,618; # 6,974,325; # 7,083,415; # 7,195,488; # 7,236,952; and # 7,357,638. I am the sole inventor/sole applicant/sole owner/sole author, in their entirety, and I have never sold, assigned, lent, transferred, hypothecated, licensed, abandoned or given away my Patents, Ribbon Copies, Rights or Entitlements. Please, restore my Ribbon Copies to me.

2) I request withdrawal of Abandonment by the USPTO of my Child Continuity Data Applications (Divisions I have not yet had any opportunity to pursue to patent issuance, due to obstruction. The list of these Child data is lengthy, and can be found on public PAIR, under my Patent # 6,776,618 "Method of Determining Zodiac Signs", "Child Continuity Data". Please withdraw the Abandonment status, as I was violently assaulted throughout 2003 through present. Let me receive definitive correspondence from your office, regardless, with specifics, as well as my instructions, as well as updated filing receipts for each with my current P.O. Box 1845 address. I have no other P.O. Box since early 2/2009. Also, same for "Child Continuity Data" of my "Invention in Finance", also listed on public PAIR under my Patent # 7,236,952. Enclosed.

3) My brilliant U.S. Provisional filing of November 2007, "Energy of Financial Instruments", I am proceeding to prosecute. I have not received any Abandonment notice. Moreover, please provide me updated filing receipt for it, and remove any party or entity (as with all my Patents and Applications) attempting to run with my works, derive off my works, or claim my Inventions applicant, sole owner, pro-se independent inventor and author in Their Entirety, without Agent, Attorney, Representative, guardian, Trustee, Custodian, Colleague, Employer or work for hire, or under Government contract. Please, correspond directly thereto.

I am enclosing \$75.00 to establish an account that I can pay (when I can) into, to fund my patent fees. You may direct my \$75 to its best use (Search fee for my "Energy of Financial Instruments"?). I believe, under MPEP ref. 711.03(c), 37 CFR 1.181, there is no fee required to withdraw any Holding of Abandonment, re my Child Continuity Data and "Energy of Financial Instruments".

4) Because strangers are continually perpetrating persecution, assassination and murder attempts, I am enclosing my Will (a life, liberty, opportunity, Andrew Six Will). It is one two sheets, which I sign (in my own handwriting - valid in California).

Re: Request Regarding My Ribbon Copies

Dear Director of the USPTO:

Early this year, my Patent Ribbon Copies (as well as all my 30+ Copyright Registrations) were stolen. As they have not been recovered, they must be presumed lost/stolen, as I have not given any of them to anyone at any time.

Would you please so courteous us to provide me bonafide proof replacements of the six U.S. Patents I have been granted to date: 1) #6,776,618 (8/17/2004); 2) #6,974,325 (12/13/2005); 3) #7,083,415 (8/1/2006); 4) 7,195,488 (3/27/2007); 5) 7,236,952 (6/26/2007) and 6) #7,357,638 (4/15/2008).

I have never made any allowance or granted any permission to any party whatsoever to attempt to be granted patent either by placing my name among a group of (alleged) inventors, or to attempt to be granted patent based upon any of my Inventions in my numerous Patents, Divisional groups, Invention Publications or Academic Inventive Authorships, and ask you to advise me on any compromise to my Rights and Entitlements already in effect, and to rescind and nullify them (for they are without permission), and to search current and pending applications in the same manner.

As I related to you earlier, I have been subjected to forced abandonment of my bonafide Divisional groups, WIPO nations and U.S. Provisional Applications, and seek full redress and opportunity to claim all of my Inventions, including those in the future, based upon fairness and provable standards of dates of submissions, filing and completion. In this Matter, I believe no fee be due, to withdraw the Holding of Abandonment (MPEP 711.03(c) 37CFR 1.181.

I have, concurrently, written to Ms. Kimberly Tyrrel, Supervisor of OPP, similarly requesting bonafide replacements of my Ribbon Copies (all applicable R. 508 Copies) inclusive of accompanying pages and signatures. A single mailing, containing this entirety, by bonded carrier, to this P.O. Box 1845 Borrego Springs CA 92004-1845, against my signature, is greatly appreciated at this time. Thank you. Happy Holidays.

Re: My Address for Correspondence, and a Request for Change of Published Figure

Dear Ms. Tyrrel:

As I advised the Director of the USPTO recently, the correspondence address the USPTO has on file for me: David Andrew D'Zmura; P.O. Box 621; Indio CA 92201-0621, was closed by USPS Indio Station 92201 in February 2009. I have not made any use of that mailing address since then, and I am not affiliated with it, or with any party who may currently be utilizing that P.O. Box address. My sole correspondence address is my USPS P.O. Box 1845 Borrego Springs CA 92004-1845, which I opened in early April 2009, as, like all my prior USPS P.O. Boxes, my personal, individual, non-business mailing address, at which and from which only I am entitled to send or receive mail, use as a mailing coordinate. I am the sole party entitled to pick up, send, handle or hold my mail. As you are aware, I do not have attorney, agent, representative, third-party payee, assign, signatory, fiduciary, guardian or associate.

Would you please update my address accordingly, especially as I have received very scant mailings from the USPTO the last two years. Further, I do not have any company or business affiliate bearing any likeness to my name, nor any physical business or home business address. I retain all Rights and Entitlements to All of my Inventions, Patents, Copyrights and Copyright Registrations, without Limit or Partition. I have not sold, auctioned, hypothecated, transferred, assigned or licensed any of my Inventions, Patents - indeed, not any of My Intangible Assets. I have not yet earned/received even a dollar in income, royalty or license fee from any of my Intangible Assets (including my substantial copyright-registered musical and literary collections), and, as such, not yet been able to use the fair Market Value amortization which is available to me - and to me alone, as independent inventor - though I do hope, Godspeed, to make transition to commerce with leading U.S. firms and institutions. I have been working on such ideas recently. Further, I am ardent to prepare and file my more recent works, "Free Energy", "Energy Invention", and "Methods to Saving Life on Earth".

If you do have time to provide updated (address) filing receipts, please be sure to include my Related U.S. Patent Doc. 60/030,085 11/5/96 of my Patent # 7,236,952. ALSO: on My Patent # 6,974,325 "Astrological Charts and Plotting Devices", I request change, that my Figure 9G (nine G) be used as its Published Figure, as it captures the full integration in noted chart. Thank you. I hope you are well, and that you get to Pennsylvania now and then.

Sincerely,
David Andrew D'Zmura

Re: Report and Request Regarding My Ribbon Copies.

Never Received Assigned
J.A.D.

Dear Ms. Tyrrel:

When I last spoke with you by phone, about November 2008, I stressed that I was under assault by numerous parties attempting to harm me and my Patents. Fortunately, I am still alive, though wounded and shaken. The felons, basically strangers, still continue stalking, theft, maimings and attempted murder on me, simply because I am a quality prize Independent Inventor, and Author in Their Entirety. They have sought my demise, the destruction, theft and/or vandalism of my intellectual properties, documents, files, computers, etc. I have notified the USPTO Director of this Matter. They have caused violent obstruction to my work, a forceful abandonment and disregard of my Rights, Entitlements and Properties. For instance, my U.S. Provisional of 11/07, "Energy of Financial Instruments" (of which I am sole inventor/sole applicant and sole owner/author), has been obstructed from search and examination, and needs to be permitted opportunity.

Moreover, in about January 2009, all of my Ribbon Copies were stolen, and having not been recovered, are presumed irreparably stolen/lost. I did not, and have not, sold, assigned, transferred or licensed any of my Patents. I further request that all remaining Divisionals of my two main treatises be permitted for me to prosecute them to patent, as they were deemed bonafide. ④

Please, by secure, registered, sealed package, to be delivered against my signature solely (as I am their sole inventor/sole applicant/sole owner and sole Author in their Entirety), provide me replacement Ribbon Copies (and any and all attendant papers) to my U.S. Patents (all in good standing [maintenance fees current]): 1) #6,776,618 (8/17/2004); 2) #6,974,325 (12/13/2005); 3) #7,083,415 (8/1/2006); 4) 7,195,488 (3/27/2007); 5) 7,236,952 (6/26/2007); and 6) #7,357,638 (4/15/2008). And a filing receipt for my "Energy of Financial Instruments" (11/2007). Please.

Sincerely, David Andrew D'Zmura

To wit, throughout the course of my years as pro se Independent Inventor (sole inventor

first-degree murder, theft, robbery, kidnapping, torture, beatings, drug use / poisonings, spying,
wiretapping / peeping / hijacking, sabotage, forgery, impersonation, assassination,
slander, libel, defamation, frame jobs, malicious stalking, terrorization, maiming etc.
The NYC police, Secret Service, FBI informed me (without any specifics or help or names,
places, dates, etc.) so I could secure my own safety, protection of my property and life, in 1998,
in 1999-2000, and the California Sheriff's similarly in 2003, 2004, acknowledged these crimes
were being done to me, including massive embezzlement of my money, dangerous
schemes to murder me - but never aided me, never protected me, my life, limb, liberty,
property, rights, entitlements. Now given any information to defend myself (where to avoid, where
my money is, etc). As such, they (at least by negligence) allowed or permitted others
to ruin my life, to steal all of my money, enforce sub-poverty-line destitution,
to be robbed, raped, stalked, trespassed, espionage, sabotaged day after day, every
day for many years now. They enabled felons at will to violate offend me,
to forcibly abduct my patent applications, divisional groups, new inventions,

Prior: My Payment to Date of \$25. - (USPS Money Order 17045892415)

Note: I do not have company or assign in any resemblance to my Name.

Dear Director:

Please be advised - I am extremely low-income, at sub-subsistence
poverty level, independent inventor and author in Entirety, pro-se.
Although I am being rampantly infringed, I have never licensed, sold,
transferred, assigned, granted, gifted or donated this patent of
mine, #7,195,488 "Astrological Tarot and Alpha-Numerology", or
any of my Patents, over 500 inventions of mine contained in my
Patents, Patent filings, Divisional Groups (patented, bona fide or as
yet unpatented). I have never received even a single dollar royalty
on any of my works - of which I am also sole Author/sole Copyright
Owner in Entirety, not just sole Owner, sole Inventor, sole Applicant.

Due to my extremely meager personal income (I am triple severe
genetic handicap (3 acute hearing pathway disorders), as well as
"gravely" (total, permanent) disabled (per Social Security, 10 years
now), I can scarcely pay any fees - whether maintenance, or on my
numerous Divisional Groups (under my "Method Determining Zodiac
Signs", or my "Invention in Finance" - of which I am sole Inventor/
sole Applicant/sole Owner/sole Author of All Entirety), or on my not-yet-
examined newer works (i.e. "Energy of Financial ~~Work~~ Instruments";
"Free Energy"; "Methods to Saving Life on Earth", etc.), let alone Petition
Fees, Duplicate Letters, etc. My Ribbon Copies, my three personal laptop
computers (1996-2009), Copyright Registrations (over 30) were stolen
from me (from my personal safe-deposit box (bank) and storage unit).
Stop those criminals against me, and their Crimes Against Our Nation.

Enclosed herein, my further payment of Maintenance Fees on my Patent
#7,195,488 (I already paid \$25) of USPS Money Order \$15, totalling \$40.
My current total now paid is \$40, with no surcharge yet to be due.

Dear Ms. Tavel; Please forward within USPTO (Director), (OTPE) - cc: Director USPTO
Over the past nine months, I have worked, pro-se independently,
inventing - business method [unclear] (my assessment) innovation, and presented
it to USPTO
whereby a trove of patents, intellectual property, copyright assets
(Intangible Assets), such as my vast wealth of multidisciplinary
fundamental and major consequential inventions, patents, copyrights,
can be packaged as asset to underwrite extremely long-term
US Treasuries/State and/or Municipal Bonds, thereby adding liquidity
to our financial system (non-fiat), more importantly, very long-term
lock-in of low-yield (interest rate) on these bonds (copyrights are
lifetime plus seventy years) which is extremely critical for the USA
at this economic juncture. The interest on the Treasuries/Bonds
is payment to me, as I for royalty for usage license of my Intangible
Assets (20 years patent, uncureable, then after 20 years, solely,
life plus 70 years copyright) to the USA/State/Municipalities.
My inventions, some would be as best suited open-general-USA
FDIC/SEC/NAIC
(aspects of astrology), others to US security, telecom, aerospace entities
(coordinate telemetry near, earth, ad. satellite to earth and vice versa),
and others, to top lead industry corporations (from among my 12 groups
of major finance discipline applications) who then can sub-license.
Lastly, my Energy/physics/field work to USA secure, academic and
select industrial USA operations. Thus, my "Patent Application", enclosed, after
not just to protect my construct for me, but my entitlement to royalty
aspect, should when it would be used on other party(ies)' Assets.

This is the Solution to USA's [unclear] - provides
as well as National security, secured at great rates, for 100 years to come. [unclear]

Note: I am (Chamberlain) presenting these core method
inventories to our US Federal Cabinet (State, Treasury),

Dear Rose, Patty and Trish,

In Spring 2009, I moved from Coachella Valley, Riverside County to Barrogo Springs, ad, you opened P.O. Box 1845 BS CA 92004-1845 (4/2009) for me - my personal, individual, my use and my pick-up only, Box.

In 2/2009, my two prior P.O. Boxes (2541, Palm Desert CA 92261-2541; and 621, Indio CA 92201-0621) - also, my personal, individual Boxes, were closed, and since then (2/09), I have (had) no other mailing

address anywhere, besides my P.O. Box 1845. I have never appointed, authorized or allowed anyone, ever, to use my address, or take my mail, or sort, tampered, hold, open it, nor, is/was anyone allowed to,

by Law. My mail is triple-protected against mail theft/tampering, etc. first, by normal USPS mail laws. Second, as US inventor, ^{author} no one (not even military or police) are allowed to open, take, handle, hold,

copy or use my mail or mailing address. Similarly, as hand-capped and disabled person, under American Disabilities Act etc, no one (not even police, doctors, relatives) are permitted in any manner to touch, monitor, take, tamper or obstruct any of my incoming or outgoing mail.

A few months ago, I tried changing lock and key on my P.O. Box 1845.

Dee executed the change (printed receipt wrong - to Box 1745 - no connection or association with me). I have no connection, employer,

affiliations with anyone, and, never have or would permit anyone to pick-up my mail, even when sick at home. I only come to the P.O. once or twice a week. Numerous official government agencies have

reported to me, theft of mail sent to me at my P.O. Box 1845 that I have never received - Federal, State, County and medical, tax, patent, copyright, insurance, social security - and also my friends back East.

Please report to me - and to US Postal Inspector - anything you know about who (and why, how, etc.) has been stealing my mail. These are crimes against me and our USA. I am being hit with a lot of fraud (credit, ID, etc)

Re: Correspondence from Me to You; Your Documentation thereof;
Theft of your Return Mailings to Me by Anti-USA terrorist felons.

Dear USPTO:

In November and December 2009, some Jan. 2010, I sent you multiple substantial important handwritten documents, disclosures, background and affidavits, containing vital key inventive steps of my inventions, including core energy ($cm=MC^2$) and fundamental designs of my O/CPLT invention. I am hand-writing, impoverished (never paid; never licensed). USA/world has no permission to use any of my Patent/Copyright works, still, and can only transact with me, cash on barrelhead, as my computers (3 laptops) were destroyed and anti-USA crimes against me, Nation and Humanity felons stole my hard drives. These felons also stole return correspondence from USPTO to me (clear felony), bearing OIPE date-stamp attesting my mail submission, and me as original inventor, in 12/09, of such as " $cm=MC^2$ " ^{and $MC=MC^2$} , and O/CPLT. Destroy those felons.

I documented " $cm=MC^2$ " on my apt. wall, 2003, and photographed it, in yellow disposable Kodak camera, along with photos of my jokes (also written on wall, eg., chest mois, etc). My camera evidence was stolen this past several months. Police (Riverside County, Cal) also witnessed my documentation, and I believe, other unauthorized, non-permitted parties, may have photo or video evidenced/recorded my 2003/4 apt. wall, Apt. 810.

Sincerely, David Andrew D'Zmura David Andrew D'Zmura

Moreover, I seek and strive to be courteous to our Nations, and have, despite possibly dubious allegations, or aspersions, by others, invested, authored, patented, innovated in important fields, and therefore hold seat in this entire affair and situation throughout my lifetime.

I work hard, and have for decades. I love what I do, and it shows. While the lifestyle of an inventor may seem curious to some, I simply need privacy, peace, protection, and a place to operate in, even reside in, as, like probably most inventors or intellectuals, I am most always at work in some manner, not manifestly evident - while time may days to months and years to come to full draft and completion, I stick to it and see it through. I wish to speak with, be interviewed and considered by actual top shelf professionals in the associated fields of my works, including also my collection of music I made/make. Mostly, much of my patent work, which manifestly showcasing a front application(s) and field, contain numerous extensible technologies actually applicable to aerospace, defense, energy, physics, mathematics, risk management, entertainment, telecom, GPS, satellites and coded algorithms and ratios. I hope to be interviewed in normal context appropo to these leading sector practice, representatives of these industries, sectors and/or government postings, including our Military and National Security, disposed and ~~scheduling~~ intending for productive, business, commercial, domestic, foreign, national, meaningful negotiation to ~~proper~~ proper bonafide commercial and/or confidential contract for payment to me. This can only be done by me directly with them, courtesy signature. I need food, clean air, medicine, recuperation, relaxation, sport, and ~~and~~ ~~can live without shame of~~
